Individual, Virtual Internship Placements

Through a series of partnerships with global leaders, including [Global SL](#), a multi-institutional hub supporting ethical global learning and community-campus partnerships, Amizade offers virtual internships to students looking forward to connecting virtually with organizations around the world.

When you participate in a virtual individual internship, you'll interact in real time with Amizade staff and site directors, learn from leaders of community organizations, and engage in thought-provoking discussions and activities. You'll be given clear tasks either working independently or in a team setting.

These placements last from 4 – 12 weeks, with a minimum commitment of 10 hours per week. They range in cost from \$50 to \$250 per week depending on the customization.

This list includes internship opportunities we offer. If you find one you're interested in, please email volunteer@amizade.org for more information on how to apply.
